 New Resources @ SCSL

New Resources @ SCSL highlights new books, articles, and other resources that are available at the State Library to help state employees with their job.

Some of the documents require a PDF viewer. You may download a free version of Acrobat Reader from Adobe. A form to convert PDF to plain text is also available from Adobe.

Additional publications on these subjects and many others related to state government operations can be identified with the library's Online Resources (for text of journal articles) and Online Catalog (for book titles). For assistance, please contact the Information Services Department .
